Shiseido to Commence Sales in Mongolia

Shiseido will commence sales of cosmetic products in Ulaanbaatar, the capital city of Mongolia, from the end of May 2010. In addition to handling global brand *SHISEIDO* makeup and skincare lines through locally based distributor Bishreft Trade Co., Ltd., Shiseido also plans to meticulously respond to market needs via counseling services aimed at steadily promoting initiatives to develop regular users of Shiseido products. With the current launch of sales in Mongolia, global brand *SHISEIDO* products will be available in 74 countries and regions including Japan.

Background to Entering the Mongolian Market

The population of Mongolia is around 2.7 million, with approximately 1 million people concentrated in the capital city of Ulaanbaatar. The country's economic growth as a result of the development of underground resources in recent years and other factors is expected to continue in the future. Although the scale of the prestige cosmetics market is still not large, this market is showing rapid growth, nearly doubling over the six-year period since 2003. Settings for cosmetics sales counters such as upscale shopping centers have been developed along with the rising fashion awareness of women living in urban areas.

Shiseido is currently promoting its Three-Year Plan, which was formulated in 2008 in seeking to become "*a global player representing Asia with its origins in Japan.*" Accordingly, Shiseido has thus far specifically carried out initiatives directed toward "the expansion of operations in new markets" and "strengthening of operating bases in existing markets" as key thrusts among its central activities. Making inroads into the Mongolian market is a part of these efforts. Global brand *SHISEIDO* products are slated to initially be sold in one store within a shopping center in Ulaanbaatar city during the first year of commencing sales as a means of establishing a prestige image and steadily obtaining regular users of Shiseido products.

Overview of Distributor

The Bishreft Group is engaged in business development on multiple fronts including trading, banking and hotel management.
