Shiseido Aid Initiatives in the Wake of the Great East Japan Earthquake

We would like to express our sympathy for the people affected by the Great East Japan Earthquake. Shiseido wishes to support affected people right by their sides through beauty support activities and activities that only Shiseido can promote.

Concept of reconstruction support

Company lives with society, and society is what lets us survive. Our hope is to fulfill the company's responsibilities as a member of society when society faces difficulties. Reconstruction of the Tohoku region, which received unprecedented damage, has a long way ahead. We intend to support affected people right by their sides for a long time so that they can become independent by utilizing our resources, such as people, objects, information, technologies, and culture, etc.

What can we do to give energy to affected people as a cosmetics company, even if the amount may be small? With such a hope, we have been promoting "beauty support activities", in which we offer beauty services like massage, makeup, and hand massage, etc., for not only women but also children and men since the quake. Through the beauty support activities, we have learned that there is "power of makeup" that can heal people's hearts, make them positive, and give them energy.

Reconstruction support linked by "camellia"

A few years after the Great East Japan Earthquake, it is shifting from the resettlement phase, which involves environmental establishment of temporary housing and debris processing, etc., to the reconstruction phase, which involves self-reliant re-building of houses, re-building of lifelines/infrastructures, and reconstruction of business districts and local industries, etc. The reconstruction speed also differs in each area. Due to this, affected people's desires are also changing and becoming diversified. Shiseido has promoted the corporate activity style of establishing relationships with stakeholders, including customers and business partners, etc., in which we can see each other's face and providing thorough response.

Since FY2013, we have been continuing to promote beauty support activities as activities to utilize the "power of makeup", which can only be offered by a cosmetics company, and promoting activities in which we build new cities with the government and local residents by utilizing our resources. We hope to consider and overcome issues that we find with local residents through face-to-face efforts and steadily promote reconstruction by accumulating results. Therefore, we will continue to support new city development by limiting the areas.
The reason we started promoting these activities

Reconstruction support linked by "camellia"

Shiseido's symbol is "Hanatsubaki (camellia)". The city flower of Ofunato City/Rikuzentakata City in the Kesen area in Iwate Prefecture is "camellia". Because of this connection, we wondered if there was anything we can do to support them by using "camellia" as the keyword and held a number of dialogues with people of these cities. Through the dialogues, we learned that people in the Kesen area used to press oil from camellia fruits in each household to use for cooking and hair care, etc. until several decades ago. In addition, we learned that people wanted to use camellia, which residents of these cities have always treasured, as a new industry for these cities. We also learned that there had been a foundation in which Ofunato had been treating camellia as a tourism resource –"home of camellia: Ofunato"– since before the quake. We thought that there must be something we can do to support these activities by utilizing Shiseido's resources.

Our dream - In preparation for specific actions -

Our greatest dream is to nurture "camellia" as a new industry for these cities, which will rapidly develop in the course of reconstruction, and to provide support for the efforts. We hope to make the dream come true by holding dialogues and generating ideas with residents of the Kesen area and Ofunato City/Rikuzentakata City and also promote our own activities so that we can help the people develop their ideal cities. In order to do so, we promoted the following actions in FY2013.

1. Activities with hopes of industrialization

We promote camellia tree-planting activities every year so that “camellia” can become a new industry for the town and that they can be utilized as a tourism resource. Since FY2014, we have been transporting and planting camellia, which is as old as 30 years old, from Machida in Tokyo with the cooperation of the JAPAN CAMELLIA SOCIETY as a specific means to accelerate the industrialization process. In collaboration with Ofunato City, we have planted approximately 440 nursery trees and 90 mature trees (as of June 2016).
A camellia tree planting event was also held this year, on June 11, 2016

On Saturday, June 11, 2016, Shiseido and Taiyo-kai, a social welfare corporation, co-hosted a camellia tree planting event at Iwate Prefectural Fukushi-no-sato Center. 20 employees from Shiseido participated in the event and planted trees together with people from Taiyo-kai, the Ofunato City Office, and the JAPAN CAMELLIA SOCIETY.

(1) Mature camellia tree planting
In order to harvest camellia seeds, from which oil is extracted, at an early stage, we planted 20 mature trees. This year, as well as last year, the JAPAN CAMELLIA SOCIETY donated 30-year-old trees.

(2) Nursery camellia tree planting
In the hope that the trees will grow well and vigorously, commemorative trees were planted by Ofunato City Mayor Kimiaki Toda, Shiseido Executive Vice President and Representative Director Tsunehiko Iwai, Taiyo-kai Director Noriya Kikawada, and Mr. Kiyohiko Nakamura of the JAPAN CAMELLIA SOCIETY. A part of the sales of the "Shiseido Relaxing Night Mist" and of Ofunato’s signature products that SHISEIDO AMENITY GOODS CO., LTD. offered in its mail order catalogues is donated to this nursery tree planting event.

Hosting a camellia tree-planting with hopes of industrialization Event on June 12, 2015

“Camellia seedling planting” held on July 12, 2013

The city of Ofunato took the lead to host the tree-planting event with hopes of industrialization so that camellia can become a new industry for the town and that they can be effectively utilized as a tourism resource. From Shiseido, 13 employees participated and promoted the tree-planting activities with local people. The camellia seedlings, which were used in this event, were donated from Shin-kamigoto-cho in Nagasaki Prefecture because of Shiseido’s activities. Among the 1,000 donated trees, approximately 300 seedlings were planted on this day.
“Tree-planting of mature camellia trees” held on June 28, 2014

Due to the fact that camellia trees take approximately 20 years to become mature, nut harvesting is the issue in industrialization. In order to accelerate the industrialization of camellia and effectively utilize it as a tourism resource, we planted mature trees at Iwate Prefectural Fukushi-no-sato Center. 8 members participated from Shiseido and planted 40 mature trees, which were donated by members of the JAPAN CAMELLIA SOCIETY via Machida City, Tokyo, along with members of Taiyo-kai and employees of Ofunato City Office.

Mature and young camellia tree planting event held on June 12, 2015

On Friday, June 12, 2015, Shiseido and Taiyo-kai, a social welfare corporation, co-hosted a camellia tree planting event at Iwate Prefectural Fukushi-no-sato Center. 16 employees from Shiseido participated in the event and planted trees together with people from Taiyo-kai, the Ofunato City Office, and the general incorporated association RCF.

(1) Mature camellia tree planting
In order to harvest camellia seeds, from which oil is extracted, at an early stage, we planted 30 mature trees. The planted mature trees were donated from the JAPAN CAMELLIA SOCIETY, which has supported this activity.

(2) Nursery camellia tree planting
We planted 40 nursery trees. A part of the sales of the "Shiseido Relaxing Night Mist" and of Ofunato's signature products that SHISEIDO AMENITY GOODS CO., LTD. offered in its mail order catalogues is donated to this nursery tree planting event.
2. Initiatives for raising awareness of Camellia in Kesen area

Releasing “before bedtime” fragrance with the motif of “Sanmen Tsubaki” of Ofunato City  Released on October 1, 2014

Fragrance soothes our feelings and gives us a sense of relaxation. With the hopes of delivering pleasant sleep with good fragrance to affected people, we worked on developing a product by utilizing Shiseido’s aromachology research. As a result, we have developed a new fragrance for users of all ages regardless of gender to experience a sense of relaxation before bedtime, by combining with the fragrance ingredient of flowers of “Sanmen Tsubaki”, which is 1,400 years old and is the oldest camellia tree in Japan located at “Nakamori Kumano Shrine” in Massaki-cho, Ofunato City. We collaborated with local people to create a new fragrance “Shiseido Relaxing Night Mist”. It was released on October 1 (Wed), 2014, with limited volume via the Shiseido website, and is available at 4 department stores, Isetan Mitsukoshi Ltd.* from March 9 (Wed), 2016. Part of the sales will be utilized in the development of “Ofunato, home of camellia”.

*available through e-commerce and selected stores only.

Shiseido Relaxing Night Mist
Can be used on the linen and skin.

Using Camellia in reconstruction efforts initiatives
Shiseido Parlour launching “Kesen Tsubaki Dressing”
November 10, 2014

On November 10, Shiseido Parlour, participating in Shiseido’s reconstruction efforts initiatives centered around the use of camellia, launched a series of dressings in the market with a limited number of products. These dressings contain “Kesen Tsubaki” camellia oil made from camellia seeds from Kesen area, a town that was affected by the Great East Japan Earthquake and Tsunami. Kesen Tsubaki camellia oil is made by roasting camellia seeds and carefully wringing the oil out with manual oil wringers. Roasting the seeds brings out a distinctive, rich aroma and gives the oil a beautiful golden color. This series comes in two varieties: Onion and French mustard. Head chef at Ginza Shiseido Parlour has made the best of this aroma, using a signature recipe in the making of the dressings.

Kesen Tsubaki Dressing
Shiseido held “TSUBAKI NO YUME FESTIVAL (Dream of Camellia Festival)” at Rias Hall in Ofunato City, Iwate on October 4, 2014, as part of Shiseido’s “Using Camellia in reconstruction efforts” initiatives. The purpose of this event was to let the local young people experience and know the potential of camellia as an industrial and tourism resource.

The theme of the performances for the event was “Experience camellia with all five senses,” including a “Fragrance Seminar” to feel the effects of fragrance and “Shiseido Relaxing Night Mist,” a “Mini Gallery” exhibiting Shiseido products and posters designed with camellia motifs, and a “Tasting camellia oil” activity where people could try foods and sweets that contain camellia oil.

In “Tasting camellia oil,” Ofunato Higashi High School students presented their hand-made sweets that contained camellia oil.

Shiseido also held “Hair & Skincare Seminars” for both male and female high school students to show the students how to style their hair and provide some tips on how to maintain healthy skin. It was a way of drawing the local youth to this festival, since it is them who will have to shoulder the responsibility for the reconstruction of the region.

The event closed with the “Hair & Makeup Show” by Shiseido’s hair & makeup artists, and featured models selected from among the local youth.

Thanks to the popular fashion brands, CECIL McBEE and SLY from Shibuya 109, all participants were able to express their “Ideal ME.”
Hosting "TSUBAKI NO MEGUMI FESTIVAL (Blessings of Camellia Festival)" Hosted on November 23, 2013

We focused on the "food culture" of camellia to support the industrialization of camellia by promoting the recognition of edible camellia oil, which was commercialized after the quake. We planned the "TSUBAKI NO MEGUMI FESTIVAL (Blessings of Camellia Festival)" with the hopes of creating an opportunity to experience potentials of camellia with local residents through the food experience of camellia. In this event, local restaurants and Japanese/Western sweets stores prepared new dishes and sweets using camellia oil, and we held a menu contest. The head chef of Ginza Shiseido Parlour participated from Shiseido and served the signature menu of Shiseido Parlour "Meat Croquette", which was fried in camellia oil, as a special menu. Local women made "Kenchin-jiru (miso soup with root vegetables)", which has always been made with camellia oil in the area, and served it at the venue. They simultaneously handed down the culture to children, who did not know camellia oil.

In addition, we also held an event, in which we experienced harvesting camellia fruits, which will be important in industrialization, in another venue (Goishi District, which is a tourist spot for camellia in Ofunato). We harvested 54kg fruits with the residents of Goishi District, which is a tourist spot in Ofunato. The harvested fruits were donated to Seishokan of Taiyo-kai, which is a social welfare corporation and an oil factory in Rikuzentakata, that faces an issue of fruit harvesting in preparation for the industrialization.

In addition, we also held a makeup seminar, which was requested by local residents. We were able to experience "camellia", which is much more than just flowers, with the local residents on this day.
3. Activities to grow camellia with the next generation

Activities in Ofunato Municipal Akasaki Junior High School

Our encounter with Ofunato Municipal Akasaki Junior High School in Iwate Prefecture was on September 11, 2012. Shiseido employees and all of Akasaki Junior High School students planted the same number of camellia seedlings as the number of 9th grade students in Akasaki Junior High School in front of the temporary school building of Akasaki Junior High School, which was affected by the tsunami.

Plates of haiku, which was written on the themes of "home of camellia: Ofunato" and "reconstruction of our home", were attached to the camellia seedlings. Since then, we have been continuing to promote the activities to grow the "camellia", which we planted with the students of Akasaki Junior High School.

Students are passing down the responsibility to grow the camellia with care while communicating the possibility that this planted camellia may become a seed for a new industry for Ofunato someday.

Haiku Works

The students in the 9th grade have been composing a haiku (Japanese poem in 5-7-5 syllabic form) with the themes of “home of camellia: Ofunato” and "reconstruction of our home" annually since 2012. And we have organized their haiku works in to a “haiku booklet” as records of steps to reconstruction, and presented to them.

Activities to grow camellia  (Video conferences/Tsubaki Journal)

Holding Video conferences

We began holding Video conferences with maintenance and safety representative students in June, 2013. In these "Tsubaki Meetings", students discuss what they have noticed and wondered about in the course of providing care for the camellia trees, and we share information.

We considered what was necessary to nurture camellia trees and prepared a nurturing program while seeking advice from specialists.
Oil Press Event  Held on November 17, 2015

“Grow camellia” ⇒ “harvest its fruits” ⇒ “extract oil”
We held an event to extract oil from camellia fruit to support Ofunato City’s goal of industrializing using the “camellia”, through an event to experience this important process towards industrialization with local students and by deepening their interest about the “camellia”.
About 30 students participated on the day, watched how oil was extracted by a traditional oil press machine in Ofunato and experienced extraction by home oil press machines. Afterwards, they tasted “Kesen Tsubaki (camellia) Dressing” from Shiseido Parlour to experience an example of how the camellia oil is used.

The participating junior high school students told us with excitement, “It was my first time to actually touch and extract camellia oil. It was very interesting”, “when you actually experience it, you realize that you need quite a lot of power to extract even the smallest amount of oil”, and “I learned for the first time that camellia oil is used for many things”.

4. Reconstruction support market
We have been holding the “reconstruction support market”, in which we collect and internally sell products from the Kesen area that we have been supporting, in the Shiseido Shiodome Head Office every year since FY2013. We held the 4th market this year in cooperation with PricewaterhouseCoopers which also has the office in the same Shiodome area as Shiseido.
<Objectives of the market>

<table>
<thead>
<tr>
<th>For Region</th>
<th>For Employees</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Improvement of the recognition of the Kesen area</td>
</tr>
